

MONDAY MORNING · MAY 2026

**Welcome.
Read this first.
Send ten emails.
Track them. Repeat.**

Two pages. Print it. Tape it next to your monitor.

What you're doing

MBA Rock is a 74-song MBA-grade business curriculum that just went 100% complete (every lesson has a song and an explainer video). Your job is the **front-end sell-in**: reaching out to media, institutional, and corporate partners and turning interest into either coverage, pilots, or licensed seats.

You're not selling cold. The product is real, the data is in your favor, and you have three custom-built playbooks waiting in the MBA Rock folder.

Open these four files (in this order, 30 min total)

1.	MBA_Rock_Jess_Email_Kit.pdf	11 pages. Read end-to-end. Voice + structure + variables glossary.
2.	MBA_Rock_Jess_Target_List.xlsx	75 named targets across 4 sheets. This is your CRM.
3.	MBA_Rock_Jess_Copy_Paste_Email_Pack.pdf	5 ready-to-send emails — subject + body for every target.
4.	MBA_Rock_Market_Valuation.pdf	\$8M–\$25M today; \$50M–\$200M scenario. Pull stats from here when asked.

Day 1 — send these ten emails (in this order)

Each one is fully written. Just verify the email address (if marked apollo) and hit send. The IDs match the target xlsx + email pack PDFs.

Time	Send ID & Target	Email address from	Why this one today
8:30 AM	M05 · EdSurge	press / editorial	Trade-press warmup — fastest reply window.
8:45 AM	M13 · The Hustle	Trends inbox	Hungry-for-stories outlet, fast cycle.
9:00 AM	M19 · Reforge	content team	Strongest natural-fit pitch (our song uses their frame)
9:20 AM	I11 · Babson	entrepreneurship	Highest-priority B-school target. Long lead, start now.
9:40 AM	I12 · Berklee Online	online learning	Music-school natural pair. Hand-in-glove.
10:00 AM	I20 · NYPL	programming dept.	Public-library pilot is almost always a yes.
10:30 AM	C01 · Spotify	verify CHRO on apollo	Marquee corporate target — music-industry natural fit.
10:45 AM	C10 · TuneCore	verify on apollo	Artists-as-operators fit. Smaller, faster.
11:00 AM	C21 · Bunker Labs	verify ED on apollo	Mission-aligned. Veteran founders = perfect ICP.
11:15 AM	C23 · Keller Williams MAPS	verify Head of MAPS	MAPS already buys curriculum. Strong pipeline.

Lunch break. Afternoon = update xlsx Status, queue tomorrow's ten.

Tracking — how to keep the xlsx alive

1. **Open target-list xlsx every morning.** Three sheets (Media / Institutional / Corporate). Filter by Priority 1.
2. **Use the 'Status' column.** Values: **Sent** · **Replied** · **Booked** · **Pass**. That's it. No other words.
3. **Note dates inline.** In the 'Notes' column add 'Sent 2026-05-19'. When replies come in, add 'Replied 2026-05-22 — yes to call Thu'.
4. **End-of-day check.** Did you send 10? Did you log all of them? Done.
5. **Friday rollup.** Email Josh a 6-line summary: sent / replied / booked / passed / hot follow-ups / questions.

First-week goals (realistic)

Metric	Realistic target	Stretch
Emails sent	40–50	60
Replies	5–10	15
Booked calls	2–3	5
Pilot proposals out	0–1	2

Rules of the road

- **Don't fake personalization.** If you don't know their recent piece, leave it out — never invent one.
- **Never send to a guessed address as if it's confirmed.** If you can't verify on Apollo or Hunter, send to the role-based fallback (**press@**, **info@**, **partnerships@**) instead.
- **Don't pivot the pitch when challenged.** If a media reply says 'not my beat,' ask who would be. Don't try to convince them.
- **Forward warm replies to Josh same-day.** Anything that smells like a yes — Josh handles the call.
- **Friday → reset.** Update xlsx, write the Friday rollup, take the weekend.

Where to ask for help

Josh: **CEO@trufflebearoil.com** — always copy him on first replies from major outlets or institutions. He'll take any inbound call you book. For tactical questions ('does this subject line work?'), text him; for anything strategic ('should we lower the corporate price?'), put it in writing.

Reference docs: **CORPORATE_LD_PITCH_EMAILS.md** has 30 fully-written corporate pitches you can swap in for any C-series email if you want more depth. **QA_REPORT_20260518.md** proves every URL works — useful if someone asks 'is the course really complete.'

Three numbers to know cold

- **\$499** — MBA Rock single-seat retail price.

- **74** — Lessons. Each has a song, a video, and a worksheet.
 - **100%** — Course completion. Every lesson has audio + video. 155/155 URLs verified 2026-05-18.
-

That's it. Open the four files. Send the ten emails. Update the xlsx. See you Friday.

— Josh
